PROFILE

UI/UX designer with 8+ years of experience across enterprise applications, dashboards, mobile products, and responsive websites. I take work from requirements and user flows through wireframes, visual design, reusable components, and frontend design execution. My focus is making complex workflows clear while keeping the details consistent through implementation.

EXPERIENCE

Exsilio Solutions

Sr. UI/UX Designer | 2023 – Present | Ahmedabad

- Own end-to-end interface design for enterprise web and mobile applications, from requirements and workflow definition to prototypes and final UI.
- Design dashboards, administration tools, and reusable components with clear hierarchy and consistent interaction patterns.
- Work with developers and stakeholders on feasibility, feedback, and frontend execution; review built interfaces for visual consistency and responsiveness.

NSEG Australia

UI/UX Designer | 2019 – 2023 | Ahmedabad

- Designed responsive websites, landing pages, dashboards, and administrative interfaces for different business and brand needs.
- Created wireframes, reusable UI patterns, and implementation-ready designs in collaboration with stakeholders and developers.
- Produced branding, campaign graphics, presentations, and digital content alongside product and web design.

OyeDesi

UI/UX Consultant | 2021 | Freelance, remote

- Designed a CRM dashboard and worked on the structure, user flows, and information hierarchy of a mobile grocery application.

Gajera Trust

Visual Designer | 2017 – 2018 | Surat

- Created branding, graphics, multimedia, and campaign assets, with a focus on typography, layout, visual storytelling, and motion.

Design practice

Selected work & capabilities

SELECTED PORTFOLIO WORK

Visitor Manager & Access Admin

Visitor records, access context, schedules, and administrative workflows. Interface design and frontend presentation across related operational tools.

Atya

Financial reporting and administration: dashboards, company records, users, roles, and reusable management patterns.

KiranaChat & AI Buddy

Mobile experiences covering grocery discovery, chat-based orders, payments, and balances; conversational UI connected to tasks, reminders, notes, and calendars.

Intellipaat

Responsive website redesign spanning content structure, desktop and mobile wireframes, finished interfaces, and shared visual foundations.

CAPABILITIES & TOOLS

Product & UX

Requirements, user flows, information architecture, wireframes, interaction design, prototyping, usability testing, and feedback-led iteration.

UI & delivery

Responsive web and mobile design, dashboards, design systems, Figma components, typography, color, spacing, developer handoff, HTML/CSS, Bootstrap, and WordPress.

Collaboration

Design reviews, stakeholder and client presentations, cross-functional collaboration, and agile delivery.

Creative & productivity tools

Figma, Adobe XD, Photoshop, Illustrator, After Effects, Premiere Pro, Sketch, and InVision. ChatGPT and Gemini for assisted ideation, content exploration, and UX documentation.
